

HEALTHCARE

High Performance Floor Coating Systems

Healthcare Facility Flooring Product Selection Guide

Area	Name	Product Features
Lobby	<p>Terrazzo - Terracrown 8370 / 8371 / 8372</p> <p>Metallic Floors (Anti-Microbial Additive Optional) 8328 / 8190</p>	Excellent bonding for direct to concrete while preventing off gassing concerns from the concrete slab that can lead to pinholes, fish-eye, or premature floor failure.
Kitchen	<p>Crowncrete U - Urethane Cement (814 / 818 / 810 / 838)</p>	Perfected for high build coating and thin mils decorative flakes and colored quartz systems. Also, ideal for resurfacing of spalled concrete.
Restroom	<p>Double Broadcast Flake System (Anti-Microbial Additive Optional) 320 / 8327HD / 8190 / 7072</p> <p>Solid Color Floor (Anti-Microbial Additive Optional) 320 / 8100</p>	Standard high-performance and chemical-resistant coating systems. Exhibits strong film properties offering wear resistance that can withstand heavy traffic areas.
Mechanical Room	<p>Solid Color Floor (Anti-Microbial Additive Optional) 8502 / 8503 / 8320 / 7072</p>	Ideal flexible coating system that is designed for impact resistance and strong physical properties.
Loading Dock	<p>Solid Color Floor (Anti-Microbial Additive Optional) 8320 / 8100</p>	Coating system ideal for areas that require high chemical and wear resistance.

Distribution Centers:

13827 Carmenita Road, Suite 200, Santa Fe Springs, CA 90670

14800 Spring Ave, Santa Fe Springs, CA 90670

1220 E. North Avenue, Fresno, CA 93725

2051 Reliance Parkway, Bedford, TX 76021

11111 Kiley Drive, Huntley, IL 60142

Healthcare facilities are pressing environments requiring the most stringent maintenance and products that are durable, stain resistant, and hygienic. These floors must be economical and reduce maintenance time as well as having to last not one year but decades.

Traditional floorings such as vinyl or carpeting are difficult and time-consuming to clean and sterilize between operations. The demand of the sanitation process required to maintain the floors can cause damage, as abrasion from scouring out stains results in the removal of sealer and the need for costly repairs. Physical damage from foot traffic, rolling carts, and wheelchairs further damage the floors, causing rips and broken welds. Crown Polymers Floor Systems provide durable seamless and sanitary options that are antibacterial, static resistant, and easy to maintain and sterilize.

At Crown Polymers, we believe expertise and dedicated responsiveness make all the difference to our customers. Our staff engineers and chemists average over 25 years of industry experience and many participated in the original development of floor protection and decorative flooring systems. Our team of engineers, chemists, and technical staff work closely to support field applications, often with custom formulations.

■ *Delivering Results, Reliability & Rock-Solid Dependability.*

Typical Uses:

- Cafeterias
- Clean Rooms
- Corridors
- Emergency Rooms
- Kitchens
- Laboratories
- Laundry Rooms
- Loading Docks
- Lobbies
- Locker Rooms and Restrooms
- Mechanical Room
- Operating Rooms
- Patient Rooms
- Rehab Rooms - Hot Tubs and Pools
- Static-Free Work Shops

Benefits:

- Warm and inviting floor designs
- Seamless floor surfaces
- Easy maintenance
- Slip-resistance
- Underfoot comfort
- Rejects dangerous bacteria
- Protects against static load
- Options for aseptic environments
- Low cost

KITCHEN

CrownCrete U - Cement Urethane

CrownCrete U (814 / 818 / 810 / 838)

LOADING DOCK

Solid Color Floor

(Anti-Microbial Additive Optional)

8320 / 8100

MECHANICAL ROOM

Solid Color Floor

(Anti-Microbial Additive Optional)

8502 / 8503 / 8320 / 7072

LOBBY 

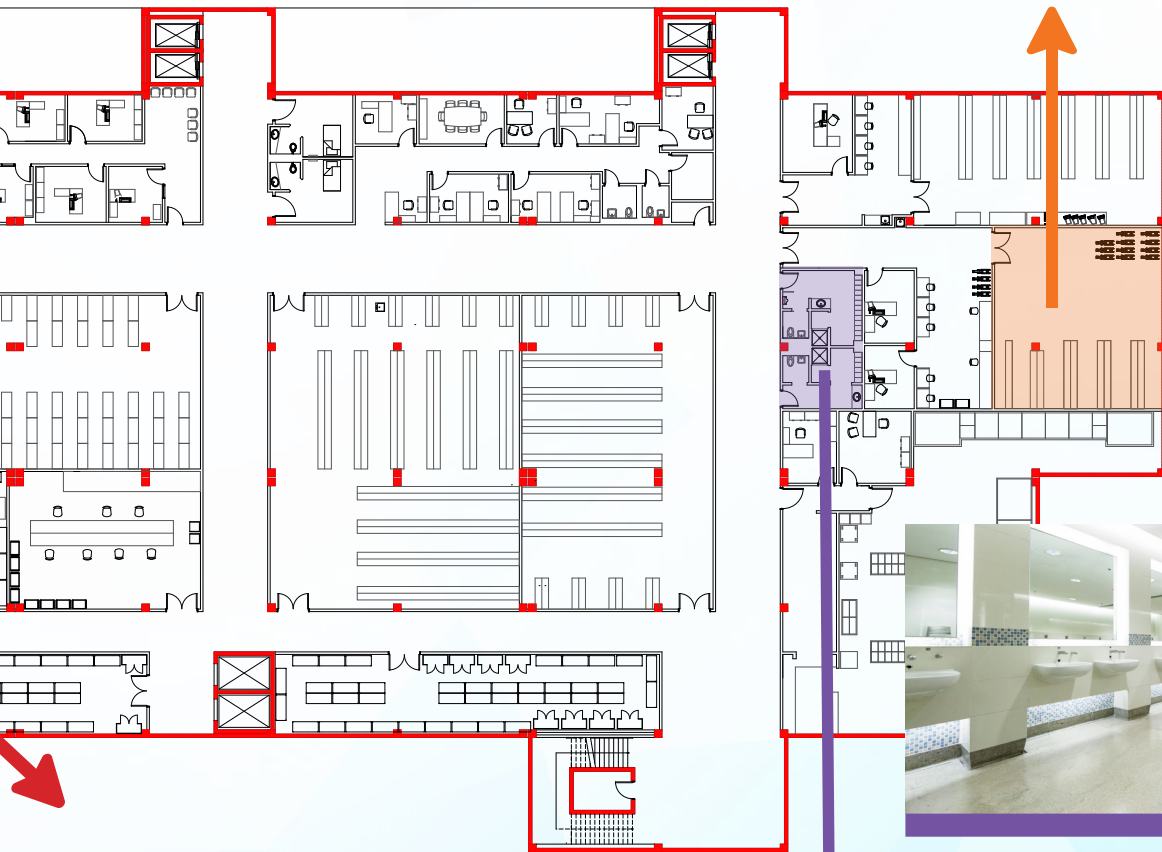

Terrazzo - Terracrown

8370 / 8371 / 8372

Metallic Floors

(Anti-Microbial Additive Optional)

8328 / 8190

EQUIPMENT ROOM 

E.S.D (Electric Static Dissipative Flooring)

8601 / 8602

RESTROOM 

Double Broadcast Flake System

320 / 8327HD / 8190 / 7072

Solid Color Floor

(Anti-Microbial Additive Optional)

320 / 8100

With over 30+ years of industry experience, Crown Polymers is one of the nation's leading manufacturers of high-performance epoxy and urethane-based floor coating products and concrete repair systems for commercial, institutional and industrial floors. Crown's production capabilities span across California, Texas, and Illinois with over 1,000,000 square feet of manufacturing space.
